

Message: Understanding the Situation

Judges 2:6-19

June 30th, 2024

Sermon notes:

A failure to remember our past v.10

➤ *We are not a Christian nation in that everyone is a Christian, but rather that Christianity and its influence shaped the ethics and moral codes we use as a rule for social order*

A focus on self instead of God

➤ *Because of a focus on self instead of God, America's trust has been replaced and its values have eroded*

A faithfulness to return?

➤ *If God didn't withhold judgment on Israel, what makes us think he will withhold it on America?*

America was built on godly principles and will survive only as long as the Lord remains her God
